

Easy 3D Paper Pumpkin Garland

Beginner friendly; about 45 minutes hands-on; extra 15 min drying

WHAT YOU'LL NEED

- ☐ Orange cardstock, 9 x 12 in - 6 sheets (1 per pumpkin)

- ☐ Green paper or cardstock - 1 sheet (for leaves)

- ☐ Brown kraft paper - 1 sheet (for stems)

- ☐ Paper brads (paper fasteners) - 12

- ☐ Jute twine - about 12 ft (loops + garland)

- ☐ Scissors

- ☐ Hole punch, standard 1/4 in

- ☐ Glue stick or white school glue

- ☐ Ruler and pencil (for even strips)

- ☐ Optional: double-sided tape for garland ends

Step by Step

- ☐ Cut each 9 x 12 in sheet into twelve 1 x 9 in strips.

- ☐ Stack 9 strips; punch holes 1/2 in from both ends.

- ☐ Tie twine into a 10 in loop; put it on a brad.

- ☐ Thread brad through all top holes; fan strips out.

- ☐ Bring ends together; add second brad through holes.

- ☐ Spread prongs; adjust strips into a round pumpkin.

- ☐ Roll brown paper into a stem; glue above top brad.

- ☐ Cut 2 green leaves; crease, then glue by the stem.

- ☐ Let glue dry 15-30 min before hanging.

- ☐ Tie pumpkins to a long twine garland 6-8 in apart.
