

DIY Macrame Keychain Tutorial

Beginner difficulty - about 20-25 minutes hands-on, no drying time

WHAT YOU'LL NEED

- ☐ 2 strands of 3 mm cotton macrame cord, 1 m (40 in) each

- ☐ 1 keychain ring with lobster clasp, 25 mm (1 in)

- ☐ 1 wooden bead, 16 mm, wide hole (optional accent)

- ☐ Scissors

- ☐ Tape measure or ruler

- ☐ Clear tape or a clipboard to anchor the ring

- ☐ Clear craft glue (optional, secures the end knot)

NOTES

Step by Step

- ☐ Cut 2 cords, 1 m (40 in) each; fold each in half

- ☐ Attach both cords to the ring with lark's head knots

- ☐ Tape the ring down so the 4 strands hang taut

- ☐ Tie a square knot: left over fillers, right over-under

- ☐ Repeat, alternating the starting side, to 18-20 knots

- ☐ Keep knotting until the band is 6-7 cm (2.5-2.75 in)

- ☐ Slide the wooden bead up the two center cords

- ☐ Tie an overhand knot below it to lock everything

- ☐ Trim the ends to 1 cm for a small fringe
