DIY 3D Paper Star Garland

Easy | 75 min hands-on + 20-30 min glue drying

WHAT YOU'LL NEED

- [ ] Gold cardstock, 12 x 12 in (3 sheets)
- [ ] Black cardstock, 12 x 12 in (3 sheets)
- [ ] 5-point star template, about 3 in (7.5 cm)
- [ ] Pencil
- [ ] Scissors
- [ ] Bone folder or used ballpoint pen
- [ ] Glue stick or clear-drying craft glue
- [ ] Gold ribbon or twine, 1/8 in wide, 6 ft
- [ ] Small hole punch (1/16 in)
- [ ] Clear tape or small adhesive hooks
- [ ] Ruler
- [ ] Cutting mat (optional)

Step by Step

- [ ] Trace 16 stars (8 gold, 8 black) and cut them out
- [ ] Cut a slit from center to an inner corner on 8 stars
- [ ] Overlap the slit 1/4 in and glue to cup the star
- [ ] Glue each cupped star onto a flat star, centers aligned
- [ ] Punch a hole near the top point of every star
- [ ] Thread stars on 6 ft of ribbon, 6-8 in apart, knot each
- [ ] Tie loops at both ends and hang with tape or hooks
- [ ] Turn knots to the back and space the stars evenly
