

Upcycled Jeans Pocket Wall Organizer

Beginner, 40 minutes hands-on + 24 hours glue drying

WHAT YOU'LL NEED

- [ ] 1 pair of old jeans with back pockets intact
- [ ] Strong permanent fabric glue (about 1 fl oz)
- [ ] 2 yards of jute twine or 1-inch cotton ribbon
- [ ] 1 wooden dowel or smooth stick, 12 inches long
- [ ] Fabric scissors
- [ ] Ruler and tailor's chalk or washable marker
- [ ] 4-6 spring clothespins or binder clips
- [ ] Old cardboard or newspaper to protect the table
- [ ] Damp cloth for wiping glue off your fingers
- [ ] Iron (optional, for pressing the panel flat)

Step by Step

- [ ] Wash and dry the jeans, then cut off one leg.
- [ ] Slit the leg open along its seam and press it flat.
- [ ] Cut a 9 x 22 inch panel from the opened denim.
- [ ] Cut out 3 back pockets, leaving a 1 inch border.
- [ ] Arrange the pockets, stagger them, and mark spots.
- [ ] Glue the pockets, press them down, and clamp 1 hour.
- [ ] Fold the top edge over the dowel and glue a sleeve.
- [ ] Seal the raw edges with a thin line of glue.
- [ ] Tie twine to the dowel ends and hang after 24 hours.
