Marbled Polymer Clay Ring Cone

Beginner | 30-45 min making + label-directed bake + 30-60 min cooling; allow 1.5-3 hr

WHAT YOU'LL NEED

- [ ] Polymer clay: 20 g white, 5 g cobalt, 5 g blush pink
- [ ] Aluminum foil: one 12-inch square
- [ ] Parchment paper: two 8-inch squares
- [ ] Smooth glass or ceramic work tile
- [ ] Acrylic clay roller
- [ ] Ruler
- [ ] Craft blade; adult supervision
- [ ] Baking tray
- [ ] Conventional oven
- [ ] Oven thermometer
- [ ] Timer
- [ ] Oven mitts
- [ ] One clean ring for testing; remove before baking

Step by Step

- [ ] Read the clay's baking directions.
- [ ] Preheat the oven to the package temperature.
- [ ] Compress foil into a flat-bottomed 1.75-inch cone.
- [ ] Condition each clay color separately.
- [ ] Twist the color ropes; fold just once.
- [ ] Roll marbled clay into a 1/8-inch sheet.
- [ ] Wrap the foil cone; leave its underside exposed.
- [ ] Trim overlap and smooth the clay seam.
- [ ] Level the base on the work tile.
- [ ] Test ring fit on the taper; remove the ring.
- [ ] Bake for the label's clay-thickness schedule.
- [ ] Cool completely on the tray before adding rings.
